Task

Create a web app that uses StockZoom Authentication, fetches the logged in users list of portfolio and also has the possiblity to navigate to portfolio detail as well. We've included the Instrument Resource so detail regarding the portfolio positions can be rendered in a User friendly way.

When you've have finished the task, please push it to a public repository and provide us with a link (mian@willandskill.se).

API

Authentication

Kindly set token using the Authorization attribute in the Header. Please note that you have to prepend "Bearer" before the token.

```
Authorization: Bearer eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJ1c2VybmFtZSI6ImFjbWVfdC5oZW1tZWwiLCJvcmlnX2lhdCI6MTU0MTY2ODkxMywidXNlcl9pZZ
```

Authentication

`POST` `https://beta.stockzoom.com/api-token-auth/`

```
{
  "password": "string",
  "email": "string"
}
```
